

# *Chapter One*

(Muse / Inspiration / Role Model Page)

1. Measure your chipboard cover.

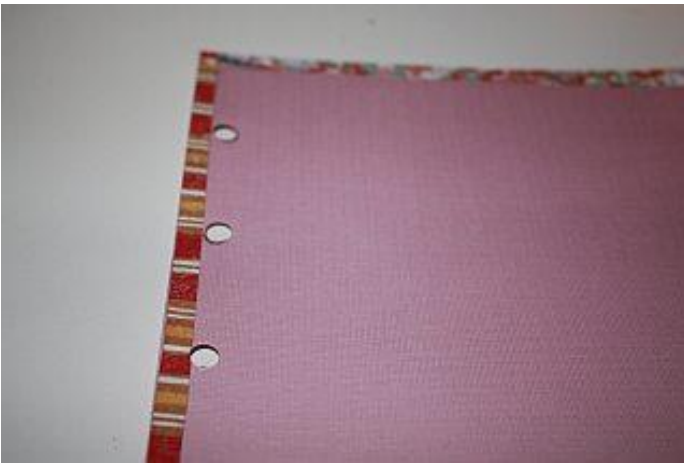

2. Cut paper to size.

3. Embellish if you want. I used paper strips to add a border.

4. Lay chipboard cover over paper and trace hole placement.

5. Punch your holes with a hole punch.

6. Transfer the information from page two of your worksheet onto your page using a permanent marker. Add embellishments if desired.

7. Combine your page to the cover using binding rings.

***Now that your first page is made, go back to the main outline page and watch the video to wrap up your first assignment!***

***You can share your page (upload) and join the conversation at “Being Queen” – the private NING network where our classroom/gathering place is located! If you aren’t already a member, you can find your invitation on the main outline page!***
